

For everyone who joined today's Webinar, here are some resources about the Pfizer COVID-19 vaccine:

ACIP's slide deck on clinical considerations for use of the Pfizer vaccine, which was presented today, is posted here:

- <https://www.cdc.gov/vaccines/acip/meetings/downloads/slides-2020-12/slides-12-12/COVID-03-Mbaeyi.pdf>

The same information is posted in text format here:

- [https://www.cdc.gov/vaccines/covid-19/info-by-product/pfizer/clinical-considerations.html?CDC\\_AA\\_refVal=https%3A%2F%2Fwww.cdc.gov%2Fvaccines%2F covid-19%2Finfo-by-manufacturer%2Fpfizer%2Fclinical-considerations.html](https://www.cdc.gov/vaccines/covid-19/info-by-product/pfizer/clinical-considerations.html?CDC_AA_refVal=https%3A%2F%2Fwww.cdc.gov%2Fvaccines%2F covid-19%2Finfo-by-manufacturer%2Fpfizer%2Fclinical-considerations.html)

Fever and other systemic symptoms after vaccination will trigger the question, "Is this a vaccine reaction, or is it COVID-19 infection despite vaccination, or is it some other problem?" Considerations on how to address such situations are presented in a pair of documents, "Post Vaccine Considerations for Residents" and "Post Vaccine Considerations for Healthcare Personnel."
