

OVERVIEW

June 3, 2021

What is the HealthChoice Illinois ADT Project?

- The Illinois Department of Healthcare and Family Services (HFS) is launching **HealthChoice Illinois ADT**, a statewide data exchange platform that will deliver vital information to Illinois Medicaid providers in a timely and secure manner.
- The first phase of **HealthChoice Illinois ADT** will enable Medicaid admission, discharge and transfer (ADT) notifications to be shared with Medicaid providers whose patients visit a hospital inpatient unit or emergency department.
- **The second phase will enable Medicaid ADT notifications to be shared with Medicaid providers whose patients receive care from a long-term care provider.**
- All long-term care providers that are enrolled in the IMPACT system to serve Medicaid customers and have EHR systems capable of transmitting ADT notifications in an HL7 format will be required to transmit those notifications for Medicaid customers to **HealthChoice Illinois ADT** by December 31, 2021.
- Managed Care Organizations (MCOs) will subscribe to **HealthChoice Illinois ADT** to receive either “raw” ADT messages, or translated Medicaid ADT notifications through the Collective Medical user portal.
- Illinois providers enrolled in the IMPACT system and engaged in care coordination services for persons enrolled in Medicaid are eligible to subscribe to **HealthChoice Illinois ADT** to receive Medicaid ADT notifications for their patients.

Collective is a care coordination solution that gets the right information to the right person at the point of care.

A NETWORK

Collective is a network of hospitals, emergency departments, primary care, specialists, behavioral health providers, post-acute care providers, and health plans across the United States, sharing important patient information at the time of care

A PLATFORM

Collective is a platform that intelligently connects each member of a patient's care team for seamless collaboration at the right time and through the best medium

A COMMUNITY

Collective is a community of providers in the care of patients—especially those with complex medical needs—in your communities and across the country.

Division of Medical Programs

2021-2024

Comprehensive Medical Programs

Quality Strategy

J. B. Pritzker, Governor

Theresa Eagleson, HFS Director

Goals

Better Care

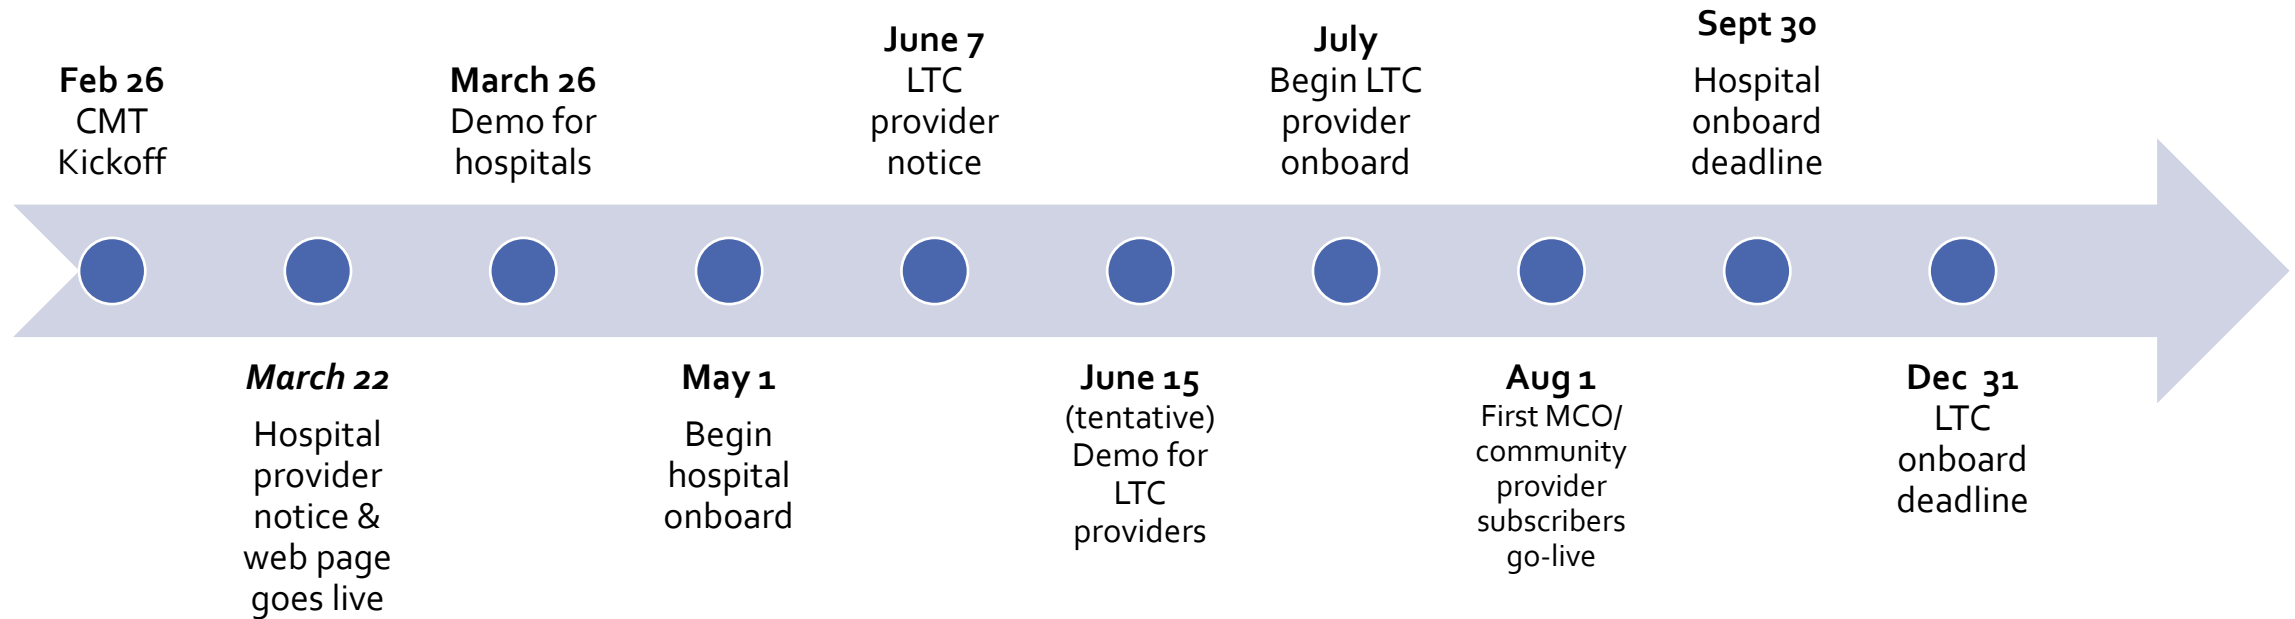

1. Improve population health.
2. Improve access to care.
3. Increase effective coordination of care.

Healthy People/Healthy Communities

4. Improve participation in preventive care and screenings.
5. Promote integration of behavioral and physical healthcare.
6. Create consumer-centric healthcare delivery system.
7. Identify and prioritize reducing health disparities.
8. Implement evidence-based interventions to reduce disparities.
9. Invest in the development and use of health equity performance measures.
10. Incentivize the reeducation of health disparities and achievement of health equity.

Affordable Care

11. Transition to value- and outcome-based payment.
12. Deploy technology initiatives and provide incentives to increase adoption of electronic health records (EHRs) and streamline and enhance performance reporting, eligibility and enrollment procedures, pharmacy management, and data integration.

1. HFS posts provider notice about HealthChoice Illinois ADT for long-term care providers next week
2. Schedule web demonstration for long-term care providers (June 15th)
3. Long-term care providers complete short survey identify contact person
4. HFS sends onboarding packet to long-term care providers with EHRs capable of sending ADT notifications to the HealthChoice IL ADT system
5. Long-term care providers return onboarding documents
6. HFS vendor, Collective Medical, contacts long-term care provider to begin the onboarding process
