

## POST TEST ANSWER KEY - TRANSFER DISCHARGE PROCESS

Question: True or False?	Answer
1. A transfer or discharge stands for a room change.	<b>False</b> - Transfer and discharge includes movement of a resident to a bed outside of the certified facility whether that bed is in the same physical plant or not.
2. The facility must provide a Notice of Discharge to a resident and resident representative 30 days prior to the discharge.	<b>True</b> – a 30 day Notice is required
3. Prior to discharge, the facility is not responsible for training or orienting the resident to their new setting.	<b>False</b> – the facility is required to sufficiently orient the resident and receiving organization to ensure a safe transition of care
4. The facility can discharge a resident because their family complains a lot!	<b>False</b> – All residents have a right to reside in the facility. Only unless there are emergent situations, clinical or behavioral condition that cannot be met in the facility, resident has improved and no longer needs services as well as other regulatory specific circumstances – can a resident be discharged.
5. Information about the resident from the MDS does not need to be included in the discharge summary.	<b>False</b> – MDS information is part of the Discharge process.
