Overview

Social distancing and isolation may be necessary during COVID-19, but it can be detrimental to our client's physical and cognitive health. Therapy plays an important role in the success of those who are isolated or unable to leave their living spaces. Therapists have the opportunity to work with clients in their living spaces to offer tools and treatment strategies to enable our clients to achieve their highest quality of life. This webinar provides an in-depth review of treatment ideas, home safety strategies to integrate into client care, and ways to integrate technology into treatment sessions.

Objectives

- Outline in room activity ideas and then apply using a case example
- Explain the importance of incorporating principals of home safety into an in room activities
- Describe ways to incorporate technology into in-room activities
