**POST TEST - ADVANCE DIRECTIVE**

Question: True or False?	Answer
1. All residents have the right to decline medical or surgical treatment even if that means they possibly could die.	
2. The Advance Directive is required for every individual entering a long term care facility.	
3. A key element to an individual at end of life is having a voice in treatment options.	
4. The facility is required to advise the resident and family of the right to establish an advance directive and offer assistance to the resident to execute.	
5. Once an individual had made the decision to have a DNR, they are unable to rescind it.
