Post Test – Drug Regimen Review

| Question | Answer |
|--|--------|
| 1. A Drug Regimen Review is completed by pharmacist every 90 days | |
| 2. When the Pharmacy Consultant identifies irregularities during the Drug Regimen Review, this needs to be reported to the attending physician, medical director and director of nursing in a written report. | |
| 3. Respite residents do not need to have a Drug Regimen Review since they are only in the building for a short time. | |
| 4. It is important to ensure that both the C.N.A.'s and the nurses are documenting on the resident behaviors accurately in order for the pharmacist to have good information to make decisions on recommendations for medication use and dosage changes. | |
| 5. I need to notify the Pharmacy Consultant within 24 hours of a resident admission, signification change in resident condition or short stay resident that would indicate a need for a medication regimen review. | |
| 6. If the physician does not agree with the recommendations of the pharmacy consultant, he/she will need to document rationale and this has to be in the medical record. | |
