The Human Factors and Aging Laboratory, housed within the University of Illinois Urbana-Champaign College of Applied Health Sciences, is seeking research participants for an IRB-Approved research study.

The goal of this study is to evaluate what motivates older adults to use medication reminder apps and what features are and are not wanted in these apps.

The study will last two hours and will take place on Zoom.

You may be eligible to participate if you are:

• 60 years or older
• Taking medication for a chronic condition
• Using a medication reminder app
• Willing to use the internet and Zoom

This research study has been approved by the University of Illinois Institutional Review Board – Protocol #21699
