

# ECHO Illinois Nursing Homes COVID-19 Network

Advocate Health Care, Chestnut Health Systems, Project HOPE, Telligen and The University of Chicago, in partnership with the ECHO Institute, AHRQ and IHI are launching this new series on COVID-19 for nursing homes. It builds on CMS COVID-19 webinars by helping nursing homes navigate the practical challenges of implementing recommendations. In these Zoom sessions, you will hear from experts in geriatrics, infectious diseases, and quality improvement and share challenges and solutions with your peers.

*All cohorts start early November 2020*

## SERIES DETAILS:

- Curriculum includes topics like COVID-19 prevention & management, testing, community transmission & screening, advance care planning, emotional well-being of staff, effective leadership & communication
- Designed for Directors of nursing, nurses, administrators, medical directors and other frontline staff
- 60-90-minute live sessions for 16 weeks
- No travel required
